## SKYLIGHT ROOFS CLEARSKY

ClearSky, retractable vaulted skylights are designed for large span opening roof lights. Operation is generally motorized; (manual option is available) utilizing SecurTrak™ system for structural safety and ease of operation. With ClearSky retractable skylights, your enclosed spaces are no longer limited to being indoors spaces only, open it and there is nothing left between you and the blue sky. ClearSky retractable vaulted skylights are manufactured to sites specific and user needs from 8 base models.
